

**Alain CHATELIN, MD**  
**Managing Director / Partner**

Following his Degree in Medicine and after having gained experience in Intensive Care as well as Pulmonology, Alain Chatelin joined the Pharmaceutical Industry in 1985 while still consulting in a pulmonology department at a university hospital.

Successively in two major companies, he was first responsible for Medical Affairs and Clinical Trials and then moved to management responsibilities for Clinical Trials and Registration in various therapeutic areas for local and global projects.

Co-founder of Altius Pharma CS and Senior Consultant, he was involved as a clinical expert in liaising with regulatory agencies, writing of Common Technical Documents (CTD) or briefing documents, assessment reports and technical file for reimbursement in various therapeutic areas. He also had responsibilities in coordinating product development for Biotechs and setting up clinical operation.
